A 14" high, 5' long Cast-Iron Tub with fire-polished finish in beautiful Acid Resistant Enamel. Water-tight sealing is assured with the "No-Leak Lip" on the wall edge.

Exciting Round Style Vanity Lavatory, 18" diameter, in Acid Resistant enameled cast-iron. For custom-built countertops or vanity cabinets. Mounting rim included.

The Finest Flushing Reverse Trap Toilet in gleaming vitreous china. Don't settle for less. Come in and see the three **LIFETIME GUARANTEED** features built into every toilet tank.

FINANCIAL AGENCIES ARE ANXIOUS TO MAKE HOME IMPROVEMENT LOANS!

All home improvements can be accomplished on a budget and financial agencies are anxious to make loans on permanent improvements . . . so don't let ready-cash limitations keep you from enjoying better living.

As recognized contractors, we are familiar with lending institutions in this area. We can tell you whether or not your proposed improvement is eligible for F.H.A. insured financing. Let us save you time by giving you the estimate of materials only, or materials and labor, etc., you will need when you apply for a home improvement loan.

DOLLARS SPENT ON YOUR HOME CAN GIVE YOU FAR GREATER RETURN LATER ON! Unlike automobiles and similar purchases which depreciate from 10 to 30% the minute you buy them, home modernization expenditures become assets by increasing the value of the overall property. It is not uncommon to hear about people living in, and enjoying a home for 10 to 20 years, then selling it for considerably more than their total investment.

O. plug, chain and stopper; and a 32" x 32" x 75" enameled steel shower cabinet complete with fittings and curtain.

AN IDEAL SPARE

BATHROOM FOR ONLY **\$91⁵⁰**

WATER HEATERS

THAT OUT-PERFORM ANY MODELS OF COMPARABLE

SIZE or PRICE. . . . In just 15 minutes, this 30-gallon gas water heater produces 25 gallon of hot water . . . and the oil model produces 30 gallon! This heater replenishes hot water so quickly and economically, it's ideal for swimming pool heating or maintenance of a large dairy. Yet it is only 18" in diameter, occupying the same space as an ordinary size water heater. Safe on combustible flooring. Has a heavy gauge steel jacket, is Glass-lined, and attractively finished in gold enamel. The gas-fired models are fully approved by the American Gas Association and oil-fired model is available with A.S.M.E. construction stamp if requested. Recovery Rate at 100° rise, for Natural Gas, is 99.4 GPH; for Propane and Butane, it is 90.4 GPH; Oil-fired is 120 GPH.

COMPACT ELECTRIC TABLE TOP WATER HEATER

Completely automatic table top model, equipped with double elements, in 30 to 50 gallon sizes. Glass lined, 10-year warranty. So convenient for the finest family dwelling, apartment, summer cottage, trailer, milk house, etc. . . . fits in with kitchen cabinets to provide more work space or install in laundry as another matching unit to washer and dryer.

PRICED FROM

\$99⁵⁰

OIL-FIRED WATER HEATER GIVES UP TO 270 GAL. PER HOUR

Practical for Farms and Institutions . . . Glass-lined, fully automatic and available in 3 sizes. The largest size, if operated the equivalent of only 5 1/2-days, would produce enough hot water for a family for a full year. Substantial fuel savings, and even larger quantities of hot water can be produced by tandem hook-up of units to overhead storage tank. Single units can then be bypassed for cleaning or repair without disrupting entire service.

ELECTRONIC AIR PURIFIER

No exhaust fans, vents or ducts are necessary to keep your kitchen clear of smoke, grease and odors. This electronic air purifier can be carried to any room in the house for refreshing sleep, clearing the air after parties, or any air freshening and purifying need. Has one-year guarantee. Plug in any 110 volt, AC outlet.

S3-F20 **\$3125**

GAS or OIL-FIRED HORIZONTAL FURNACE

Compact in design, yet it heats, filters, and circulates air the same as larger central heating plants. Hang from the ceiling in your basement, utility room, or place it in the attic. Comes in completely automatic gas-fired models, approved by A.G.A., from 80,000 to 160,000 BTU/Hr. input. Oil-fired models are approved by Underwriters Laboratories and are available in 105,000 to 280,000 BTU sizes.

PRICED FROM **\$21450**

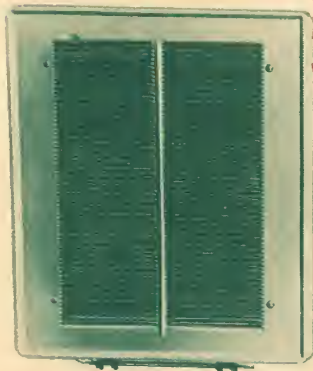

CEILING HEATER

Ceiling mounted space heater which circulates warm air thoroughly in garages, store room, shops and other large areas. Louvers control air flow direction. Models from 25,000 to 300,000 BTU/Hr.

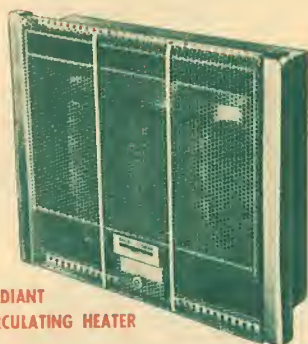

PRICED FROM **\$15750**

Electric HEATER

BUILT-IN AUTOMATIC FORCED AIR ROOM HEATER

Sizes to give abundant clean warmth for rooms requiring from 1,500 to 4,000 watts. Completely automatic thermostat maintains room temperature at the level you select. A fan delay switch prevents circulation of cold air until element has heated. No open coils or glowing elements . . . the cast-aluminum heating element is safety-sealed and has 5-year guarantee. In Bronze-gold finish.
PRICED FROM **\$76⁵⁰**

RADIANT CIRCULATING HEATER

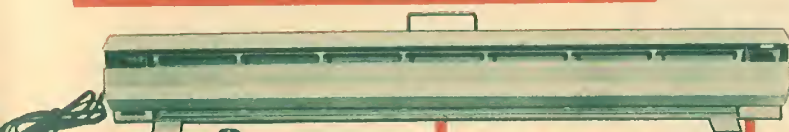

Keeps your bathroom, nursery or any other small room at a constant temperature. Has a high style grille front with triple-core heating element and cool air intake for circulating warmth. Automatic thermostat. Completely safe.

1,000 Watt Capacity.
S3-7710-A

\$44⁸⁵

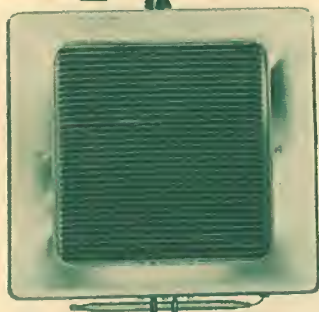

HEAT-A-VENTLITE... IDEAL FOR BATHROOMS

A circulating fan, an exhaust fan, a ceiling heater and light, all in one! Fan works independently. 1475 or 1800 Watt size.
PRICED FROM **\$55⁷⁵**

PORTABLE ELECTRIC BASEBOARD HEATER

Light weight, inconspicuous. Carry it where you need it . . . has built-in thermostat for automatic comfort control. For hard-to-heat areas or small unheated rooms. Use any 120 volt outlet. Coral tan finish. 4' long, 6 1/4" high, 1200 Watts.
S3-BBC4P **\$24⁷⁹**

AUTOMATIC FORCED AIR ELECTRIC WALL HEATER

Keep your bathroom or any other small room at desired warmth . . . set from 55° to 85° F. and automatic thermostat goes to work. Sealed-in cast-aluminum heating element gives positive safety against fire, shock or burns, and has 5-year guarantee. White enamel or gleaming chrome finish in 1320 watt models.
PRICED FROM **\$39⁵⁰**

RECESSED RADIANT ELECTRIC HEATER

\$15⁴⁹

Manual control of 1,000 Watt heating element; keeps temperature where you want it at very low cost, in bathroom, nursery, den, etc. Stainless steel finish. 5-Year Guarantee. Easy to install.

in 8 Ft. Sections **\$169** per lineal ft.

BEAUTIFUL BEIGE AND GOLD FINISHED DECORATOR *Styled* BOILERS

BY *Nationaline*
Designed For Placement
In "Living Areas"

Nationaline Hydronic Boilers are now smaller than the normal size water heaters (30-gallon gas and 52-gallon electric), yet they will comfortably heat the average 6-room home. The larger sizes can be equipped with self-contained domestic water coils which eliminate the need for a separate water heater. Heat your home the modern hydronic way . . . have more space for other purposes.

HEAT KING BOILERS ARE IDEAL FOR REMODELING OR REPLACEMENT WORK

Rid your home of that old space-killing furnace with its octopus-like duct-work, and convert your basement into extra living space. Heat King Boilers take less space than, and can replace the need for, your present water heater. They will heat your home with radiant warmth like that from the sun, and do it through concealed finger-thin piping or inconspicuous metal baseboard units. Units will pass through any standard doorway and no major structural alterations are required for installation. Gas models are A.G.A. approved and available in 80,000; 100,000; 130,000; 165,000; and 200,000 BTU sizes. Oil models are in 126,000; 168,000; and 210,000 BTU sizes. Boilers are shipped completely wired and assembled, ready for quick installation. Domestic coils, expansion and zoning systems optional.

CAST-IRON GAS or OIL-FIRED BOILER

Favored for its extra high efficiency, each water tube section is a single-cored casting made of a special analysis grey cast-iron, consisting of five horizontal water filled tubes. Design includes multiple flue passages which provide maximum heat absorption. This flowing water heating system provides the proper proportion of radiant, convected heat for steady, automatically controlled home comfort. Oil rating 93,000 to 234,000 BTU's. Gas rating 84,000 to 233,000 BTU's. Complete with burner and controls, has deluxe extended jacket.

S3-OU-13-CW Oil-Fired, 93,000 BTU output **\$409.50**
S3-G-13-CW Gas-Fired, 84,000 BTU output **\$358.50**

GAS-FIRED HEATING BOILER

Cast-iron construction. This space-saving unit features low fuel consumption, rapid heat response, no over-ride, uniform heat transfer, self-cleaning flue passages. Carries full A.G.A. approval for automatic operation with Natural, Manufactured or LP gas. Standard package, with modern controls. Boiler and controls are housed in an insulated, deluxe jacket, finished in grey hammeroid, which may be set up and removed without disturbing electrical connections or piping.

40,000 to 240,000 BTU sizes.

S3 -M-50W, 40,000 BTU output Regular **\$173.50**

Heating And Cooling Radiator MAKES *Air-Conditioning* POSSIBLE THROUGH **HYDRONIC** HEATING SYSTEM

When these wall insert radiators are installed with your Hydronic Heating System — a full air conditioning system can be had in summer by adding only a central chilling unit. Thus you have zoned cooling, through the same piping used for zoned heating. A manual rheostat controls comfort in every room or, if you wish, a thermostat controls temperature automatically. Units are sized to fit between standard studs — no carpentry required. You can enjoy all these benefits at once or add them as your budget permits.

UNITS ARE PRICED FROM **\$67.⁵⁰**

MODERN EXPANSION TANK For Hydronic Heat Systems

A pressurized, diaphragm-type chamber for water expansion control in new or existing hot water heating systems. In two sizes: Model 18 for systems where total water volume is 28-gal. or less: Model 30 for systems that contain 50-gal. or

less. For volume in excess of 50-gal., use either model in multiple.
